GEOGRAPHIC AVAILABILITY CODE LISTING

Please read these instructions carefully. Failure to follow them could cause you to miss chances for employment.

Select the code to the left of those areas where you will accept employment. You may select a maximum of 9 different codes. You may select 5 Area Codes, 4 Area Codes plus 5 bases, 3 Area Codes plus 6 bases, 2 Area Codes plus 7 bases, 1 Area Code plus 8 bases, or 9 individual bases.

Be very careful to select only those areas where you are actually available for work. Generally you will be referred for employment consideration to only one base at a time. Therefore, if you choose a location where you really do not desire employment, you may forego consideration at a preferred location.
